Mehran Ayub
Software Engineer

A passionate Software Developer with 2 years of experience in ASP.NET Core and React.js. I love crafting web applications that make a positive impact on users. Working in a multinational company has sharpened my skills in delivering high-quality code while meeting tight deadlines. I enjoy collaborating with diverse teams, and my communication skills help me contribute effectively to every project.

WORK EXPERIENCE

Software Developer
Contour Software Lahore

07/2022 - Present   *Lahore*
A subsidiary of Constellation software Inc.
Tasks

- Full stack development in ASP.NET CORE & React JS.
- I am using Redux Tool Kit & MUI in React JS.
- Working with Web Apis and Azure Functions in .NET Core.
- Third Party Apis Integration e.g Shopify, Gravity payments.

PROJECTS

Head to Head Service Provider (FYP)
(06/2021 - 06/2022)

- This system provides you your nearest skilled persons as Mechanic, Electrican plumber etc. In this project , I used google map Apis for live location, and developed it in ASP.NET core and React JS.

Target Web (07/2022 - Present)

- Target Web is a web portal which is used by dealers of constellation. This system is integrated with shopify. I am using ASP.NET CORE and React JS for development of this system.

Wash It (04/2020 - 04/2021)

- Wash It is a wbe and applicaton based system, where users can get services of cloth washing.This system use google map API, which get user's live location and call to a wash man.On this project am working currently.Technologies I choose for this system are React JS and ASP.NET CORE.

Poll Voting System (01/2022 - 01/2022)

- Poll Voting System is an online poll creating and vote casting system that I developed in React JS and .Net Core in a competition of Code In Guru 4.0 by IEEE LUMS.

Ecommerce Application (05/2022 - 08/2022)

- Developed in ASP.NET Core 6 and React JS
